Accessibility

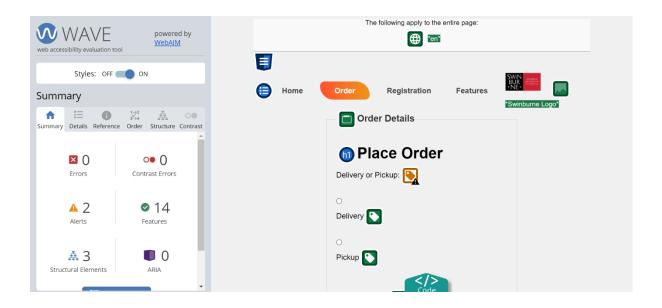

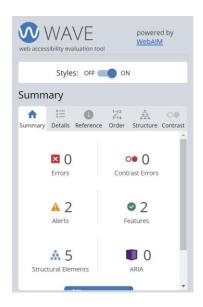

I couldn't fix the contrast error on the chrome extension because I couldn't change the colour of my search bar in the mercury server. However, I was able to change the search bar on my desktop to dark pink.

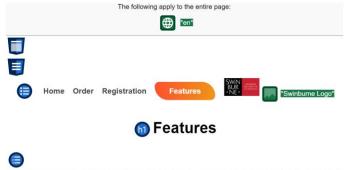

- 1. On the <u>home page</u>, there is a search bar where you can search for the ice cream flavor you want. If the ice cream flavor is available, an image of the ice cream will show up under the search bar. If the ice cream flavor isn't available, it will display "no results".
- 2. On the <u>Order page</u> Order page, choose between delivery or pickup. Then fill in the Billing Address, Delivery Address, Email for Receipt, choose to pay online or pick up option, select credit card type, and enter the credit card number. If you click the submit button without completing the form, you will receive an error pop-up message indicating that delivery or pickup is required, billing address is required, contact number is required, email is required, and payment method selection is required.
- 3. Also on Order page the Order page, if the Order page, if the Order page in the Or
